PROFESSIONAL SUMMARY

Driven by knowledge, and a general enthusiasm for problem solving, I am an independent software engineer who has brought multiple projects to completion and been an important asset in every project. I have honed my skills to excel in MERN, Python, Android Development and CodeIgniter, focusing on core concepts and not limiting myself to a single stack. I am an ambitious individual who is eager to learn new things and keep my arsenal updated with innovative technologies.

EDUCATION

Bachelors in Computer Science, June 2019 – Szabist, Karachi.

High-School, April 2015 – Govt. College For Men, Karachi.

School, October 2013 – S.M Public Academy, Karachi.

KEY PROJECTS

USDoctors - E-Learning Platform:

My key responsibilities include development and maintenance of the linked platform which is built using CodeIgniter 3, Javascript, Bootstrap, HTML, CSS, JQuery etc.

Sath Chaloo - Ride Hailing Platform:

I was responsible as the core developer in this small start up based in Karachi. During this time I created their [website using ReactJS](#), developed customer and driver mobile applications using Android (Kotlin). Furthermore I was also responsible for deployment of these apps on PlayStore.

Xtreme Hardware - E-Commerce Platform :

I developed this solution using WooCommerce, WPBakery Page Builder and WordPress.
